

The Flatiron: NYC Luxury Living Space

[A2]

Conosciuto in tutto il mondo per la sua forma stretta e triangolare, verrà inaugurato quest'anno come un complesso di appartamenti di lusso.

Most of the world's buildings are square or rectangular. So, naturally, when someone builds a triangular building, it gets a lot of attention, particularly if it is prominently positioned in one of the most famous cities in the world. [For over](#) a century, the Flatiron Building in New York has been a symbol of the city. Now, for the first time, people will live inside the iconic triangular structure, which [is to open](#) as a luxury apartment complex this year.

AN ICONIC STRUCTURE

Designed by architect Daniel Burnham, the Flatiron Building first opened in 1902 as the [headquarters](#) of the construction company Fuller Company. It was named the Fuller Building at the time, but became known as the Flatiron Building because of its triangular [shape](#). The building was reminiscent of the [flatiron](#), an old, non-electrical version of a [clothes iron](#). Situated on the intersection of Broadway and Fifth Avenue in Manhattan, the [twenty-two-storey building](#) soon became famous worldwide, and the area around it became known as the Flatiron District. It was designated a New York City [landmark](#) in 1966, [added](#) to the National Register of Historic Places in 1979, and designated a National Historic Landmark in 1989. Today, it is considered one of the most iconic buildings in the world. [Luxury condo for sale in the Flatiron Building, NYC.](#)

TRIANGULAR LIVING SPACES

The Flatiron Building was bought and sold several times over the years, and was used as the [headquarters](#) of several different companies. However, in 2019, its final [corporate tenant](#), Macmillan Publishers, left, in part because the building was in desperate need of renovation. The iconic structure remained [vacant](#), its future uncertain, until a group led by New York [property developer](#) Jeffrey Gural bought it in 2023. [Places](#)

Ultimate Luxury: The New York Plaza Hotel Migliaia di celebrità e artisti hanno alloggiato nelle lussuose camere di questo hotel. Il Plaza è diventato un personaggio della città di New York, anche se non è tutto oro quello che luccica. Alex Phillips, Molly Malcolm

LUXURY

The group then began a massive project to convert the building from a century-old office space into a modern luxury apartment complex, at an estimated cost of [up to](#) (100 million. As part of the renovation, the building has been repaired, [restored](## "ristrutturare"), and modernised. Its old offices have been [replaced](## "sostituire") with around forty luxury apartments, while its [ground floor](## "piano terra") remains a commercial space, with new units and facades. Each

apartment has distinctive triangular living spaces and a mix of historic and contemporary elements. They are expected to sell for between ¥11 and \$50 million.

HOW DO YOU SAY...?

Toccare il cielo con un dito. To be on top of the world.
